GOLDEN BOYS is produced to provide a collection of photo reference studies to be used by the Artist and Art Student in his studies of anatomy and the posing of the model. While it is always preferable to use a live model, photographs can provide an invaluable reference when a professional model cannot be obtained. Those desiring erotic or prurient material are warned that such is not to be found in this product, nor is it our intention to provide material of such a nature.

All products of CALAFRAN ENTERPRISES, INC.—films, slides, books and photo sets—are produced on the highest quality photographic and printing materials. All products of CALAFRAN ENTERPRISES are produced from the original negatives and prints supplied to us by photographers and models working expressly for us.

Beware of cheap copies and duplicates of our work, which cannot compare in quality and detail as contained in the originals as produced by CALAFRAN ENTERPRISES, INC. Look for this notice whenever you purchase photo sets, films, color slides, or publications.

EDITORIAL—

We are proud to present this, the first issue of Golden Boys. Golden Boys is unique in its field, and we have high hopes for the future of our new protege. Our publication is different and special for many reasons, all of which give us high hopes for the future of our venture.

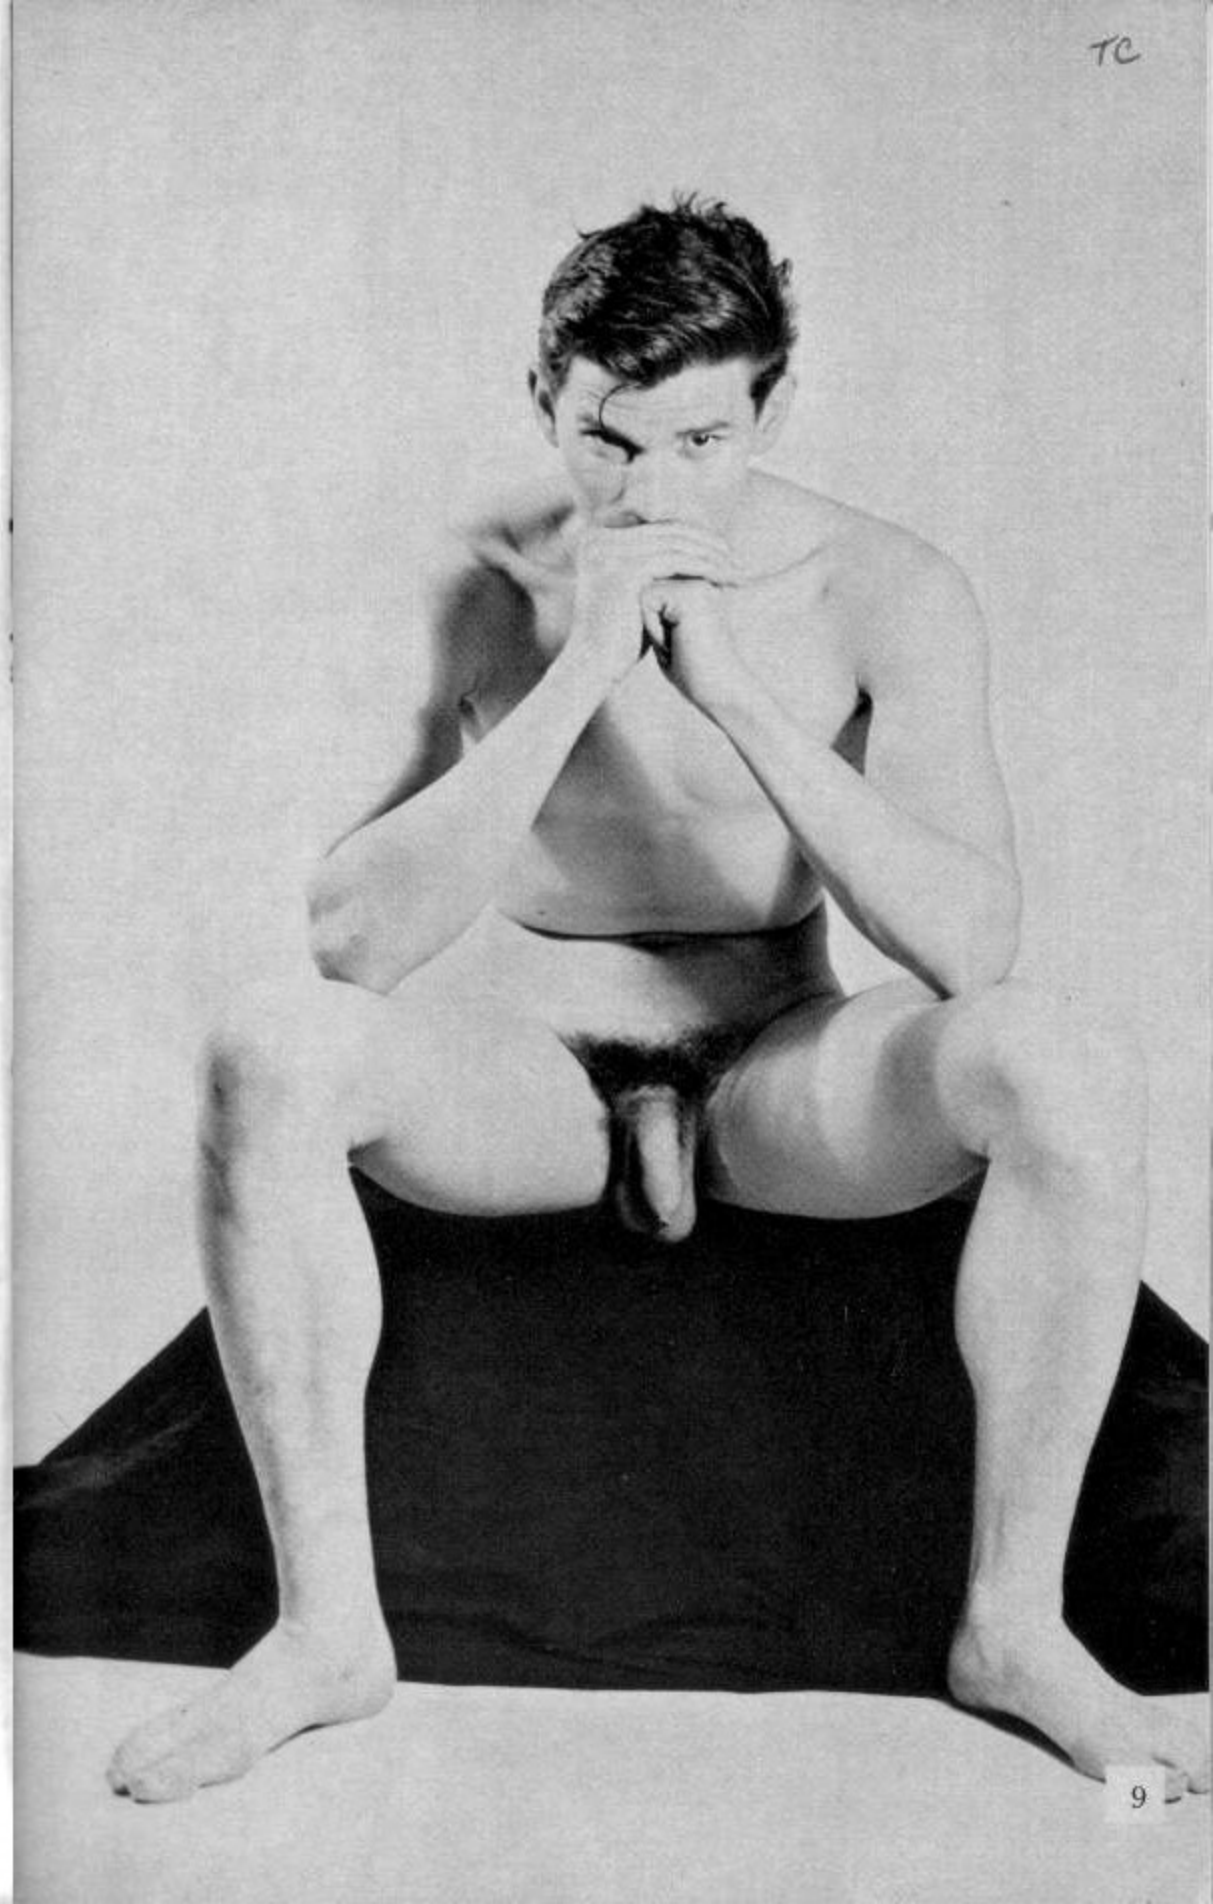
Our first point of pride is the fact that this is the first male nude physique magazine edited and published by a physique photographer, using the best work of many photographers in the field. Other Photographers now publish their own magazines to be sure, BUT most are not male nude magazines. Some photographers have published their own male nudist books, but these have included only their own photography. These are all fine books, and we recommend them highly. But we feel that these books are somewhat restricted in scope, except for the publishing photographer.

There are also several male nude and nudist magazines being published by exploiters who are not themselves Photographers. Of the male nude magazines, we have found one publisher to be honest and sincere with the photographers whose photographs he uses—this is the Trojan Book Service. To our knowledge, no other publisher of male nude books has treated photographers in an honest and legal way. Many hundreds of our photographers have been published in various magazines without payment for publication rights and without permission or credit to us. Most of the (expensive but) cheapy books being sold are an outright infringement of the rights of the photographers whose photos are being us

Our lawyers have told us that suit would be difficult and expensive.

And so, we have set out to produce the Golden Boys, a magazine that will pay photographers for publication rights and give advertisements to photographers who request them. Your editor is a photographer himself, and knows the need of other photographers and the mind of our customers. We will be able, through future issues of the Golden Boys, to provide the best selection of male nude photography, from prints and slides supplied by the finest of physique photographers. By using only the highest quality printers, plates, and paper, we can assure our customers of the best quality reproduction possible.

Our plans for the future are great, and with customer support, we can make many mutual dreams come true.



With each issue we will provide a portfolio of the best in nude physique photography, and through their advertising, you will know the photographers who can supply you with the best in physique photography of the male. Through our own company, CALAFRAN ENTERPRISES, INC., we will keep our customers informed of the release of new items—photo sets, slide sets and movies—available only through CALAFRAN. Through our articles and stories, we hope to entertain and inform. Future plans might include a "Letters to the Editor" column, news of significance, perhaps informative articles on how to photograph the male nude, or an interview with a model or photographer. Right now, we'd like to know a little about you—our customer. We'd like to know how you feel about this, our first issue—any suggestions or criticisms—how you would like to change or improve the GOLDEN BOYS—what you would like to see in a book like this—what should we avoid. Write us a letter; we need your suggestions to make THE GOLDEN BOYS the best possible male nude magazine published.

We can also use photographs, artwork, articles, stories, or any material for use in future issues of the Golden Boys. The pay is not high, but good. So if you are a photographer, amateur or professional, an artist or writer, please get in touch.....Let's do business! Or perhaps you want to be a model? We have studios in San Francisco and Los Angeles. If you've got the looks and the desire, get in touch....we'll arrange for an interview. Be sure to include a complete description and photo, if possible.

So get out the pen and pencil, write us and let us know what we can do for you.
